First Choice.

When you do business with Peak Asphalt and the Idaho Asphalt family of companies, high-quality asphalt products manufactured to your exact specifications are only part of the story. Supported by our in-house AMRL-accredited labs and award-winning transportation and spreading companies, we lead the industry in quality, innovation and seamless one-stop-shop services.

We are family-owned and treat our customers as part of our family. From our sales team to the lab, to production and management, our word is our bond. Our mission is to help you succeed - whether we are at your side in the field, optimizing our chemistry for project conditions, or sharing best practices for innovative treatments.

We strive to be your "First Choice."

Reed Ryan

Executive Director
The Utah Asphalt Pavement Association

So far, 2022 has felt like a period of transition.

We are grateful for each and every one of you. We hope you will use this directory to connect to your peers, engage one another, and find ways to help all of us become better.

<https://utahasphalt.org/about-us/#intro>

CONTINUING TO GET IT DONE!

Dear Valued UAPA Members,

We are glad you are association members, and we are grateful for your support. UAPA would not be what it is, 11 years and counting, without the generosity, expertise, energy and commitment you provide. We hope you can see the benefits of membership, too. When people work together, the resulting synergy is wonderful to experience.

So far, 2022 has felt like a period of transition. I don't think I will ever take talking or meeting in person for granted again. We don't know what will happen in the future, but it does seem likely that COVID will be increasingly relegated to the background. People will continue to be diagnosed, but prevention and treatments will improve. It won't be as life-threatening as it has been.

We focused last year on making the most of personal connections, being fiscally responsible with association resources and working through our strategic plan. It is exciting to think we now have an opportunity to think through and implement a new strategic plan for the association for the remainder of 2022 and 2023. I am confident we have lessons to learn and can meet the future's challenging circumstances.

In addition to the 11th Annual Golf Classic, held in August 2022, we have three great upcoming events planned for November 2022. The Central-Eastern Utah Asphalt Summit will be November 1, 2022, at the Uintah Conference Center. We are very excited to bring this event back to Eastern Utah since the last time we met for the Summit in 2016. We will present three educational sessions, have industry leaders update attendees about what's new on an agency level and have a mini equipment rodeo. The Central-Eastern Asphalt Summit will be a great way to prepare for the next paving season. We will

ensure plenty of networking time and plan to offer meals and snacks, too. The educational sessions are:

- Double Chip Seals Using CIR Applications
- What's in your Asphalt Mix Today — What's Likely to be in it Tomorrow
- Effective Road Maintenance Programs

The UAPA 2022 Fall Conference is scheduled for November 10, 2022, at The Dixie Convention Center. Another chance to play golf with other UAPA members will be on November 11, 2022. We put a huge amount of effort into this conference, and attendees have told us that they find it to be a worthwhile event. This year won't be any different.

From November 28, 2022-December 1, 2022, UAPA members will visit Auburn University and NCAT's Research Center and Test Track. The research center is a leading research institution with state-of-the-art equipment to test asphalt binders and mixers, and the test track is a 1.7-mile oval divided into 200-foot test sections. We plan to tour the preservation sections on Lee Road 159, the NCAT laboratory and test track, hear technical presentations, eat, and (for those interested) experience a golf outing at the Grand National. It's going to be informative and fun.

We hope you will find this directory useful. The strength of UAPA is the strength of our members. We are grateful for each and every one of you. We hope you will use this directory to connect to your peers, engage one another, and find ways to help all of us become better. The association stands ready to help you make these kinds of connections.

Keri and I are always happy to help you. Call, text, email or visit us when you have a question or an idea.

Best regards,
Reed

UAPA is the only trade association that exclusively represents the interests of the asphalt pavement material producer and paving contractor on a local level with government agencies and other trade and business organizations.

ABOUT US

VALUE TO MEMBERS

We focus on organizational excellence to create resources that provide members with needed information, and we help members build lasting industry relationships.

UNIFIED VOICE

We provide a unified voice through partnerships with governing organizations about education, specifications, and policies and procedures that better the industry.

COMMITMENT TO INDUSTRY

We promote the use of asphalt and grow our reputation by acting with integrity and using innovation, fair market principles, and industry best practices.

OUR MISSION

The Utah Asphalt Pavement Association (UAPA) is committed to being the unified voice of the asphalt industry to promote the quality and use of asphalt pavements in Utah.

BOARD AND COMMITTEES

EXECUTIVE COMMITTEE

The Executive Committee consists of the current president, the immediate past president, the president-elect, a secretary, and a treasurer. This committee oversees all actions of the association. Particularly, this committee is responsible for ensuring that the actions of the association are in line with the overall goals and strategic plan for UAPA. Therefore, the Executive Committee often serves as a filter for any action needing approval that may come before the Board.

PRESIDENT • Doug Watson • CMT Technical Services

PAST PRESIDENT • Jeff Collard • Hales Sand & Gravel

PRESIDENT-ELECT • Bup Minardi • Mountain Regional
Equipment Solutions

SECRETARY • Cody Rhoades • Wheeler Machinery Co.

TREASURER • Casey Hawkins • Geneva Rock Products

BOARD MEMBERS

UAPA's Board of Directors consists of executives and owners from eleven members in good standing with the association. The Board draws from all levels of membership in UAPA to create a voting bloc that gives each member of the Board exactly one vote. The Board of Directors gives final approval to any official action taken by the association. This includes fiduciary as well as non-fiduciary responsibilities. Through the use of UAPA's Industry Improvement Agenda, and the association's strategic plan all proposed actions, works in progress, or completed projects are brought before the Board through the chairs of UAPA's working committees along with the recommendation from the Executive Committee. Motions are made, votes taken, and necessary follow-up to UAPA's working committees is then given at each of these meetings.

Jason Klaumann • Granite Construction, Inc.

Ryan Dalling • Geneva Rock Products

Tim Nevenner • Kilgore Companies

Waco Bailey • HF Sinclair

James Hulse • Mountain States Asphalt

Dale Hansen • Asphalt Materials

Jared Wright • Peak Asphalt

Bup Minardi • Mountain Regional Equipment Solutions

Mike Kurz • Staker Parson Materials & Construction

Dean Garrett • Morgan Pavement

Sam Beuke • Suncor Energy (USA), Inc.

OPERATIONS COMMITTEE

The Operations Committee consists of leaders and decision-makers from member companies as assigned and approved by the association's executive leadership. The Operations Committee monitors, reviews, and develops recommendations to the Board of Directors in respect to the core values and several key areas of industry including, but not limited to the following charters within the Committee: Operations, HMA Production, HMA Construction, Transportation, Pavement Preservation, Technical, Aggregate Production, and Local Government.

Jeff Collard • (Chair) • Hales Sand & Gravel

Jaden Kemp • GeoDyne Transport

CJ Davis • Holbrook Asphalt Co.

Jared Wright • Peak Asphalt

Cort Van Gorder • Kilgore Companies

Brian Burr • Staker Parson Materials & Construction

Scott Fernald • Granite Construction, Inc.

Nicole Shields • RoadSafe Traffic Systems

Bryce Peterson • Geneva Rock Products

Skyler Droubay • Double D Distribution

BOARD AND COMMITTEES

TECHNICAL COMMITTEE

The Technical Committee consists of quality control specialists, technical managers, and engineers from member companies as assigned and approved by the association's executive leadership. The Technical Committee develops, researches, analyzes, proposes, and executes specifications, guidelines, and best practices to ensure quality materials and applications are used in asphalt pavement construction. This committee is the indispensable knowledge-base of the association in making recommendations to the executive leadership and to UAPA's Board of Directors.

Dan McDaniel • (Chair) • Geneva Rock Products
Pete Folk • Granite Construction, Inc.
Luke Peterson • Ingevity, Inc.
Sammy Lovato • Staker Parson Materials & Construction
Cort VanGorder • Kilgore Companies
Justin Ballantyne • Kilgore Companies
Tim Biel • CMT Technical Services
Gene Chrisenbery • Mountain States Asphalt
Bob Siffert • Ingevity, Inc.

Brody Young • Peak Asphalt
Tyler Surrage • Staker Parson Materials & Construction

Ryan Proctor • Suncor Energy (USA), Inc.
Troy Kelsey • Peak Asphalt
Rick Bird • All States Materials Group
Nolan Poulson • Pacific GeoSource
Mike Scardina • Surface Tech, LLC
Narain Hariharan • Graymont
Sy Winkelman • Terracon Consultants
Trent Anderson • Graymont
Kirk Jackson • Terracon Consultants
Mike Hawley • Jones & DeMille Engineering
Jorden Smith • Geneva Rock Products

PRESERVATION COMMITTEE

The Preservation Committee consists of technical managers, lab managers, owners, sales consultants, and engineers from member organizations as assigned and approved by the association's leadership. The Preservation Committee develops, researches, analyzes, proposes, and educates on specifications, guidelines, and best practices to ensure quality materials and a competitive marketplace in pavement preservation and maintenance. This committee's focus centers on what is best for agencies and owners in striving to maintain and preserve what is typically one of their largest assets, their roads.

James Clark • (Chair) • Crafcro, Inc.
Bart Freeman • Seal Coat Supply
CJ Davis • Holbrook Asphalt
Chad Dyer • Nu Rock Asphalt Coatings
John Moody • SealMaster Utah
Chris Hanks • M&M Asphalt
Nicole Maxwell • Maxwell Products, Inc.
Nick Howell • T&N Asphalt Services

Mark LaBelle • Asphalt Systems, Inc.
Mark Christensen • J-U-B Engineers
Derek Andersen • Andersen Asphalt Maintenance
Joe Mattson • Morgan Pavement
Martin Oelofsen • Straight Stripe Painting
Chris Robb • Maxwell Products, Inc.
Ben Allen • Maxwell Products, Inc.

REGIONAL LEADERSHIP COUNCILS

Utah Regional Leadership Councils focus on all aspects of asphalt and pavement that are unique to that region in Utah. The members include asphalt pavement producers, paving contractors, equipment manufacturers, materials suppliers, equipment distributors, engineering firms, and consultants.

NORTHERN UTAH

Craig Fabrizio • (Chair) • Staker Parson

UAPA BENEFITS

- **Access Industry Leaders:** UAPA membership provides access to the management of the top businesses in our industry. We support networking and collaborating within our industry, creating a more inclusive and professional environment.
- **UAPA Committees:** UAPA members drive industry advancement, innovation, and adoption through numerous committees focused on specific areas, including safety, sustainability, materials, workforce and more.
- **Awards and Recognition:** There are multiple prestigious industry and members-only awards, plus recognitions like Large Project of the Year, Small Project of the Year, Preservation Project of the Year, Quality In Construction Project of the Year, Industry Leader of the Year, and the Hall of Fame Inductee.
- **Workforce and NextGen Leadership:** UAPA is working with our members, industry, and agencies to address the workforce issues faced by our members. Moreover, we are actively working to mentor and grow the next generation to lead the asphalt producers and contractor businesses throughout Utah and the U.S. UAPA has an active scholarship program and awards several \$1,500 scholarships each year.
- **UAPA Expertise:** UAPA is an extension of your company with expert staff to assist you with specific challenges and opportunities for you and your company.
- **Federal Advocacy and Education:** UAPA is a well-respected, trusted advisor with connections to federal government agencies, departments, and elected officials. UAPA often provides input, comments, and testimony regarding the industry impact of legislation and regulation on a local level, improving the business environment for our members.
- **UAPA Publications:** UAPA members automatically receive our quarterly magazine, On the Road (digital and print), regular newsletters (digital), and our annual UAPA Directory and Buyer's Guide (email and online).
- **UAPA Onboarding:** When you join UAPA, we will spend time learning about your business so we can help introduce you to the programs, products, and services to maximize your membership.
- **Discounts on UAPA Products and Services:** NAPA meetings, publications, research reports, training/webinars/podcasts and networking provide ample opportunities to advance your business. ◀

LUNCH & LEARN PROGRAM

The UAPA Lunch & Learn Program helps members stay current about specification changes as well as information about new products and innovations. These events, among others, are also an excellent opportunity for industry networking.

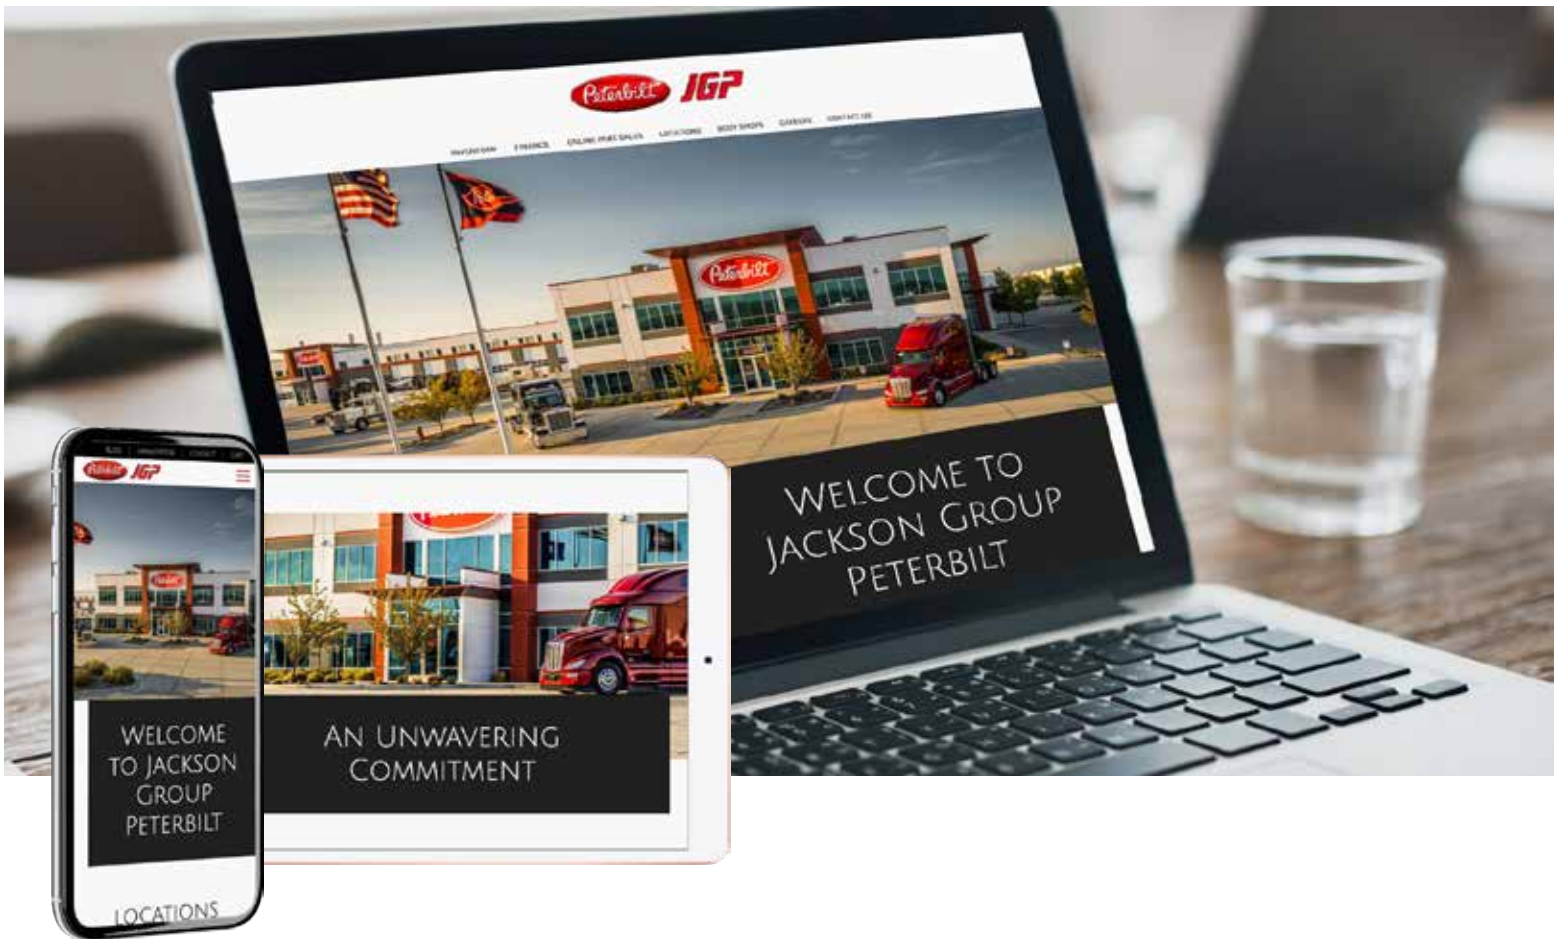

For each Lunch & Learn session we look for presenters who are industry experts or who are well-educated about their specific subject. Lunch & Learn sessions often generate a lot of follow-up conversations and meetings. Those who hear the presentations often take the information back to their

colleagues and that prompts additional conversations and opportunities for engagement.

These free sessions give you the right tools to make good decisions and help you to find the right path for the particular problem you are trying to solve. They are also a great first exposure to UAPA. Please check our Events Page for upcoming Lunch & Learn events, as well as other events held throughout the year.

For more information please visit utahasphalt.org/education. ◀

STAKER PARSON

MATERIALS & CONSTRUCTION

A CRH COMPANY

From parking lots to heavy highway projects and everything in between, Staker Parson Companies has you covered. Our crews are professional, courteous, and knowledgeable. Our asphalt plants can supply you with binder, base, surface course or any type of specialty mix you need. In addition to our quality asphalt products, Staker Parson Companies specializes in:

- Sand, Rock & Landscape Products
- Ready Mixed Concrete
- Asphalt & Paving
- Construction Services

Choose Staker Parson Companies as your *Preferred Source* for your construction needs.

QUALITY LIME & STONE PRODUCTS THAT IMPROVE YOUR WORLD

Graymont Hydrated Lime

Use Graymont Hydrated Lime for High Performance Hot Mix

- superior anti-stripping agent
- improves stiffness and reduces rutting
- reduces cracking, oxidation and aging
- cost effective ▪ economical ▪ synergistic benefits

**Call your Graymont Representative today
to see how Graymont Hydrated Lime can improve
your hot mix performance.**

Lime in Asphalt

Proven Performance

CAREERS IN ASPHALT PAVEMENT

WHY SHOULD YOU CONSIDER A CAREER IN ASPHALT PAVEMENT?

WHY SHOULD YOU CONSIDER A CAREER IN ASPHALT PAVEMENT?

MONEY

The industry provides high paying jobs for workers at every level. Workers on many asphalt pavement projects must be paid minimum wages that for most positions exceed \$30 per hour.

JOB SECURITY

Asphalt pavement jobs cannot be outsourced to other countries. Roads are built and maintained by people who live and work in the local community, there are miles and miles of roads in dire need of repair, and more workers are expected to retire than can be replaced in the near future.

OPPORTUNITY

Formal education is not a barrier to advancement. Asphalt pavement companies care more about desire to work and learn than degrees. Hard workers can get to top-level positions with or without formal education.

VARIETY

There are positions for employees who place asphalt pavement, prepare bids, administer contracts, test asphalt pavement in labs, manage projects, mix asphalt pavement, operate heavy equipment and trucks, fix equipment, advertise, and perform many other tasks.

WHAT ARE SOME FACTS THAT YOU MIGHT NOT KNOW ABOUT ASPHALT PAVEMENT?

Asphalt pavement is essential to the economy. Everything in your home or apartment traveled over an asphalt road at some point.

Most of our roads were built prior to 1980, are nearing the end of (or are past) their expected life, and will need to be rebuilt in the very near future.

Asphalt pavement is the most recycled product in the United States by weight — all existing asphalt pavement can be ground up and reused in new asphalt pavement.

Smooth asphalt roads significantly reduce vehicle fuel use and wear-and-tear, and provide a surface that is quieter for drivers and surrounding communities.

Asphalt pavement is made of natural materials. The stone, sand, and gravel come from quarries, and the binder (the glue that holds everything together) comes from naturally occurring deposits of the oil refining process.

WOMEN OF ASPHALT UTAH BRANCH

UAPA is proud that Utah has its own Women of Asphalt Branch.
Nicole Shields, Nicole Maxwell and Haley Isaacson currently lead the Utah Branch.

Nicole Shields, Chair
RoadSafe Traffic Systems
nicole.shields@roadsafetraffic.com

Nicole Maxwell
Maxwell Products, Inc.

Haley Isaacson
Staker Parson Materials
& Construction
haley.isaacson@stakerparson.com

By becoming a member of Women of Asphalt (WofA) you are joining an organization which strives to mentor, educate, and advocate for women in the asphalt industry.

There is **NO COST** to join and invaluable benefits to be had including connecting with women around the country working in various positions within the asphalt community, mentoring programs, networking events within your state and at World of Asphalt, and employment leads.

Become a member today!

<https://tinyurl.com/wofa-utah>

We've been providing the asphalt pavement industry here in Utah with asphalt-release products that are safe and the highest of quality since 1991.

For over 30 years, Seal Coat Supply, Inc. has led the asphalt preservation industry with innovative products. Setting robust industry standards with a reputation built on quality and performance.

TUFFCOAT:

TUFFCOAT IS THE TIME-TESTED WORKHORSE OF ASPHALT SEALERS!

- Tuffcoat is the top choice of asphalt-based sealers when quality and performance are demanded.
- Tuffcoat consists of 60% residue solids of custom blended performance grade asphalt and industry leading aggregate blend.
- Tuffcoat protects pavement from damaging effects of UV rays, oxidation, rain, snow, frost/freeze thaw cycles and chemical damage.

TUFFCOAT P+:

Extend your Asphalt Serviceability with Tuffcoat P+. Through preserving the native asphalt binder by pausing the age hardening process of the underlining asphalt pavement.

- Lowers the Cost of Pavement Management
- Deflects Damaging UV Rays
- No Loose Aggregate Post Installation
- Over 30 Years of Continued Innovation
- Available to Utah's Top Contractors
